

OptumHealth At-A-Glance

Mission and Vision

Our Mission is to help people live their lives to the fullest. Our Vision is to be a constructive and transformational force in the health care system.

Company Description

Based in Golden Valley, Minn., OptumHealth employs more than 14,000 people and generates more than \$6 billion in annual revenue. We help 60 million Americans each year better manage their health care challenges, finance their health care needs and achieve their health and well-being goals. We provide our services to employers, insurance companies, health care providers and public sector organizations such as county and state governments. We also offer our services through solutions marketed by other UnitedHealth Group companies, and directly to consumers through our free Web site, www.myOptumHealth.com. OptumHealth is part of UnitedHealth Group (NYSE: UNH), headquartered in Minneapolis.

Our businesses:

OptumHealth Care Solutions provides personalized health management support and services for more than 40 million Americans that enable them to stay healthy, get healthy, or live with health conditions. Services include holistic wellness and discount programs, customized portal options, decision support, disease solutions, complex medical condition support, case and utilization management programs, and physical health programs. Additionally, Care Solutions manages private health and wellness Internet portals that provide industry-leading content and online tools.

OptumHealth Behavioral Solutions is the nation's largest accredited managed behavioral health care organization, providing services to one in six insured Americans. It is supported by the largest behavioral provider network in the United States - more than 84,000 practitioners. And Behavioral Solutions offers the industry's most comprehensive array of innovative and effective behavioral health care programs including integrated behavioral and medical programs, depression management, brain health, employee assistance, work/life management, disability support and pharmacy management programs.

OptumHealth Financial Services offers products that help make health care more affordable and accessible. It manages more than two million individual health care accounts and more than \$1 billion in health savings account and related investment assets at its OptumHealth Bank. Financial Services also issues more than 25 million health debit and medical cards each year. More than 530,000 health care providers rely on us to transmit more than \$3 billion in claims payments and statements from health plans every month.

OptumHealth Collaborative Care is focused on the delivery of effective health care through an interconnected set of practices and services to meet all patient needs. Collaborative Care is a model of care where doctors, caregivers, actionable medical information and everything else that matters work together. Our empowered physician model leverages our collaborative technology, people, information and alignment of incentives to achieve quality outcomes for our patients and our communities.

Logistics Health, Inc. (LHI) provides care for commercial and government employees, including the U.S. military through cost-effective, innovative health care management. Based in La Crosse, Wisc., LHI provides customized health care solutions, and is supported by a national network of more than 25,000 medical, dental and behavioral health providers. LHI designs, implements and manages occupational health and wellness programs, medical and dental readiness services, and secure data management for the Department of Defense and other government organizations as well as a number of commercial clients.
